

# Assignment 8: Final Project – Interim Report

*Stat 140SL*

*Due December 1, 2018*

## Assignment 8

This is a team assignment so only one member needs to submit for the whole team.

## Content

Please submit 3 (required) things and an (optional – required if your team changed) team selfie:

1. Your current working R code (or other code if you are using something like Python or SPSS etc.). If you have multiple files, just submit one item as an example.
2. Your presentation draft. This might be slides or a handout or both. Just submit one item as an example.
3. A single page (minimum, you can include more if you want) write up including the following:
  - A. Basic descriptive analysis of data set your team selected (e.g., measures of central tendency, measures of variation, documenting missing information, documenting data cleaning if necessary)
  - B. What research question(s) your team plans to answer
  - C. What problems your team has encountered (if any)
  - D. What each team member has contributed towards the project at the time of submission
  - E. What each team member plans to contribute to the project by the end of the quarter.
4. (optional if there were no personnel changes between Assignment 6 and 8) Team Selfie

## Submission Instructions

The assignment is due December 1, 2018 by 11:59pm. Please select one team member to upload your interim report. We will use the content of the interim report to determine the presentation order. The top half of teams will be scheduled to present on Wednesday December 5th, the bottom half will be scheduled to present on Monday December 3rd, the ordering will be posted on CCLE on December 2nd before noon.
